Joe,

First attachment is the latest replacement for BERA Table 11-1. I'm thinking it makes more sense to split this up into 13 tables or a 13 part table, one for each of the 13 assessment endpoints. Column with the location(s) of the highest HQs is still not complete, CDM and I are still working to finish that column. Also has a number of comments in red that need addressed before the table is finished. Some are easily fixed, others we may ask LWG to do.

Second attachment is the table Jen Keefe sent earlier today, EPA responses to LWG responses to EPA comments on the first draft of the BERA. Try and say that fast 5 times.

Best regards,
